EU Directive 2006/122/EC – Declaration on PFOA

In the manufacture of the current products offered in the product lines listed above the substances mentioned in the Directive 2006/122/EC (perfluorooctanoic acid and perfluorooctane sulfonate) are **n o t** used as raw material.

Therefore the requirements of the Directive 2006/122/EC are fulfilled.

F o r n o t i c e:

Many substances are ubiquitous. The observance of all these substances is not part of BASF's ongoing production control. In view of the many factors that may effect processing and application of our products, these data do not relieve processor from carrying out own investigations and tests neither do these data imply any guarantee for certain properties nor the suitability of the product for a specific purpose. It is the responsibility of the recipient of our products to ensure that any proprietary rights and existing laws and legislation are observed.

BASF SE

The data indicated above are the results of our investigations and correspond to the state-of-the-art.

The data refer to the state of the laws at the date of issue.

This confirmation expires after 12 months or in case of regulatory changes.

New certificates are published in the internet portal; the former certificates automatically become void.

In your own interest please regularly check the confirmations issued in the internet portal.

It is the responsibility of those to whom we supply our products to ensure that any proprietary rights and existing laws and legislation are observed.

The certificate is exclusively for our customers and respective competent authorities. It is not intended for publication either in printed or electronic form (e.g. via Internet) by others. Thus, neither partial nor full publication is allowed without written permission.
